Advantages of using Ag-Bags

- ◆ Ag-Bags are extremely strong
- ◆ Any length of Ag-Bag can be made (up to 150 metres) and every metre can hold 7 tonnes of road salt
- ◆ Flexible choice of storage location
- ◆ Low cost; no planning
- ◆ Ag-Bags are zip-sealed
- ◆ Ag-Bag Systems have a nationwide contracting service
- ◆ We provide a recycling service for the Ag-Bag plastic.

What is Ag-Bag?

Well proven in the UK for over 20 years, Ag-Bags are mainly used within the agricultural market for forage, grain & fertilizer storage, although it offers numerous other storage solutions.

It is also used in the UK for recycling purposes to create compost; avoid expensive landfill costs and to give a 'greener' solution to waste management.

Ag-Bag has been successfully used in the UK and Germany to store road salt during the summer months, when salt prices are at their lowest..! Of course, it can be used all year round, too.

Benefits to road salt users

- ◆ Road salt can be purchased and stored when prices are at their lowest
- ◆ You have 100% availability of your road salt
- ◆ No damage to the environment when your salt is stored in Ag-Bags
- ◆ Road salt delivery problems during winter are avoided—you can get faster delivery times at a fairer price
- ◆ Quality of the stored road salt is guaranteed for a minimum of 3 years
- ◆ An Ag-Bag can be filled from any vehicle, regardless of how your road salt is delivered (e.g. tipper truck, push-floor lorry, tanker)
- ◆ Buying road salt 'out of season' means you get the exact type of road salt to fit your particular spreaders.

Your next step to flexible road salt storage...

Our company will provide a FREE no obligation quote for providing a solution to your road salt storage problems.

Site visits can be arranged to advise on location and technical specifications. We provide full after-sales support, together with the full range of accessories for Ag-bags - seals, vents and repair kits.

Installing the AG-BAG system will transform your winter maintenance operations

We give a friendly, efficient service and your satisfaction is always our main priority.

- ◆ GRASS SILAGE
- ◆ FORAGE & GRAIN MAIZE
- ◆ WHOLECROP & HEAD-CHOP
- ◆ CEREALS
- ◆ DRY & MOIST FEEDS
